II. Summary Case Level Activity for all Redeterminations

	September	October	November	YTD*
Total W/ Maximus Involvement	48,882	79,824	36,534	486,354
Continuation/Change	33,095	42,387	25,581	264,485
Initial Cancellations	15,787	37,437	10,953	221,869
Total W/o Maximus Involvement	69,619	61,759	57,333	662,251
Continuation/Change	56,512	48,581	46,209	543,535
Initial Cancellations	13,107	13,178	11,124	118,716

III. Individual Level Cancellation Data

	September	October	November	YTD*
Total Initial Cancellations	52,943	88,897	39,495	614,668
Return from Cancellation	18,765	22,061	9,665	261,873
Net Cancellations	34,178	66,836	29,830	352,795
% persistent after 1 month	65%	75%	76%	
% persistent after 2 months	69%	75%	---	
% persistent after 3 months	65%	---	---	

*YTD is from February 2014 onward

NOTES:

Maximus system data based on December 1, 2014 data extract; EDW data based on December 5, 2014 extract. Data covers entire second phase of IMRP, which started in late February, 2014. Attribution to a month reflects the month in which decision was made, not necessarily the month in which the decision was effective.

Notes on individual sections follow:

I. Case level data from Maximus system

II. Case level data from both Maximus system for those cases in which Maximus was involved (primarily cases without benefits in addition to Medicaid) and from EDW for those in which Maximus was not involved (cases with other benefits in addition to Medicaid). Lower cancellation rate for clients who have additional benefits (primarily SNAP) reflects the fact these clients return information more promptly because the loss of food support is much more immediate. Medicaid tends to be regarded as a benefit accessed when needed. (For the same reason, the more a client uses Medicaid, the more likely information will be returned promptly.)

III. Data is at individual level from EDW. Table shows that a significant number of clients return to the rolls, some of them fairly immediately when they present required information

IV. There are small fluctuations in determinations completed for previous months due to determinations completed retroactively

V. There was a drop in the number of eligibility determinations completed in November due primarily to an emphasis of reviewing cases previously cancelled, where clients had returned documents after the due date.
